### ABOUT THE ORGANIZATION

The Platteville Community Arboretum was founded in 2004. Since the 2016 grand opening of the new paved and lighted 3-mile Rountree Branch Trail, PCA has organized 100 volunteers, half of which work two hours each week on the trail, removing mountains of invasive plants, installing benches, picnic tables, garden plots, and more. PCA also plants native trees that provide beauty and wildlife habitat. They are supported by a wonderful community of financial contributors.

The Rountree Branch Trail is a pedestrian and bicycle trail that stretches from UW-Platteville to the Mound View State Trail, paralleling the Rountree Branch stream and Business Hwy. 151 for most of its 3-mile length. Approximately 400 people use the trail every day.

In times of loss and bereavement, it is always a considerate gesture to show affected parties how much you care with a sympathy gift. Such gifts help to honor the life of a loved one while offering comfort to family members and friends.

When the right words are difficult to find, let the Platteville Community Arboretum help. There are a number of naming rights options available. Selecting this type of ongoing recognition honors the individual and helps passers-by to remember the deceased.

The Platteville Community Arboretum

is here to help you express your deepest condolences with tastefully designed memorials, placed in a natural setting along the trail and stream. Memorials are personalized with the name of the honoree. There are a wide range of options enabling you to choose what best symbolizes your loved one.

Pets are family, too, and their loss can be hard to bear. If your furry friend's favorite place to run and play was outside, select a memorial option in their memory.
